

Little Flower

Förderung von Kindern und Frauen in Indien e.V.

PEARL Individual Sponsorship Programme

PEARL stands for 'Educational movement for activating landless rural people'. The project was established in 1994 and is a non-profit making organization in Tamil Nadu, India.

PEARL's principle concern is to promote the holistic development of children, young girls and women who are socially and economically discriminated against. This group also includes children and young people who have discontinued their school education for various reasons.

Education is a fundamental right of each child and is essential for the development of a human being as well as for society as a whole. Through sponsorship programs, a child in need gets the chance to grow up with access to education, health and care. The financial aid enables:

- a proper school education
- a proper diet
- health care
- recreation and the fostering of creativity
- development of the individual
- encouragement to participate proactively in society

Long-term targets are to support children in becoming independent and responsible members of society by creating conditions in which they can fulfil their potential. This has a sustainable effect on the families and the whole society across generations.

Main project target groups

The target groups of our projects are:

- children of bird catchers and snake handlers who traditionally don't attend school because of their itinerant lifestyle.
- children of weavers, refuse and sewage workers who are threatened by exploitation and oppression by higher castes
- children of Dalits
- Children of families whose parents or relatives are employed as day laborers or unskilled workers in agriculture for extremely low wages and in poor conditions

Criteria for being accepted are

- Social or economic need
- Danger of exploitation, abuse or negligence within the family
- Loss of father or/and mother
- Child shows interest in school but is prevented by the family from attending
- Lack of local schools in rural areas

Becoming a sponsor

Our sponsorship programme is a good way of supporting a child in need and of improving his or her life in a sustainable way. It can bring a great deal of satisfaction.

The current donation level of € 150 covers the cost of caring for a child for one year.

If you would like to support a child, we will send you a brief description of the circumstances in which they live and a photo of them and their family. We will also keep you up to date through reports and information from our staff. If you desire, you can correspond with your child through Ms. Amala, in this case please write your letter to your child to Ms. Amalas address in India.

We hope that you will maintain a lively interest and continue your support until the child has finished his/her education.

Finally, please don't forget when transferring money to give us your address and to state specifically that the sum is a sponsorship donation. It helps us a lot and allows us to send you a receipt.
